

I am a listener of Air 1 radio in my community which is broadcast on 88.7 F.M. in the Phoenix area. This radio station is a vital part of my and my children's lives because of it's positive messages and songs. This station provides an alternative for my family and friends who would rather listen to a positive and family friendly broadcast. I am confident when I turn on Air 1 that my two pre-school boys will not hear something that they should not be hearing at their age. I am also confident that my boys are recieving messages from the music and D.J.'s that will last far into their futures.

If Air 1 was to be displaced by an LPFM broadcaster which provides other programming, myself and my children and friends would find it very difficult to find another positive radio station and would desperately miss the style of music and messages provided by Air 1.

I believe that the services provided by Air 1 are in the public's best interest because it provides alternative music and messages that are positive. Air 1 also provides families with family-friendly messages in which they don't have to be afraid of what will be said or sung next.
